OSI CUSTOM SERVICES

Course creation – Our experienced instructional designers create learning content using today's instructional design techniques.

- Develop courses in ExxTend Learning™, Articulate Storyline®, Articulate Pro Studio®, Lectora® Inspire, and Adobe® Captivate®.
- Use your resource materials, such as documents, PPTs, procedures, manuals, etc., to create a custom course and skin (theme) with your company's branding
- Customize existing courses – your company's or OSI's courses

Design and illustration – Our graphic designers can create nearly anything to help make your CBTs, documents, presentations, marketing campaigns, etc., more visual and engaging.

- 2D or 3D illustration
- Animation
- Interactive learning activities
- Photography
- Video

Writing and proofing – Our team of instructional designers can help you build any document you need, such as procedures, manuals, company presentations, instructor-led training (ILT) with instructor/student manuals, etc.

- Create
- Format
- Proofread/edit

Narration – We provide professional voiceover in just about any language.

Translation – We translate text and narration into many different languages.
