

SOLUTIONS MADE SIMPLE.

In 1995, OverNite Software, Inc. (OSI) started out developing and delivering rapid-response content for use in LAN-based training applications. In 1999, we launched ExxTend Learning™, a web-based learning management system that delivers, tracks, and provides online compliance training to organizations around the world.

For over 20 years, OSI has provided clients with one of the most robust LMSs available, produced engaging and adaptive training materials, and supported some of the largest organizations with the tools to educate, train, and improve their workforce.

Who We Are

Since the conception of OSI, we have devoted our passion to creating cutting-edge training solution software for the workplace. We specialize in providing interactive learning content, performance support, employee skill advancement, and efficiency products adaptable to nearly every organization. OSI is the crucial link between employee development and realizing organization objectives.

What We Do

We provide a comprehensive tailored solution to meet specific organizational needs. Through employee skill advancement, we help increase our clients' workforce performance and effectiveness. By providing an evergreen training environment, including the tools to improve organizational and personnel development, we empower organizations and employees to meet their full potential.

“ I've had 7 years with the LMS, but we brought it on to Freeport in 2008. The libraries are very impressive and it's really reduced our paperwork. We use the LMS mostly for personnel training but currently we're expanding it for orientation of visitors. We have visitors from all over and using the courses in the LMS will get them up to speed with our terminal. ”

– Mike Quilty, Freeport LNG

PASSION

Our desire is to provide our clients with the opportunity to educate employees and improve the safety of the work environment.

INNOVATION

By staying on the front lines of technology, we provide industry-leading software for organizational development and employee learning.

CUSTOMER SERVICE

We strive to provide a high level of personalized service to each and every client. Our clients' success is ultimately our success.
