# SOLUTIONS MADE SIMPLE.

For over 20 years, OverNite Software, Inc. (OSI) has provided clients with one of the most robust LMSs available, produced engaging and adaptive training materials, and supported some of the largest organizations with the tools to educate, train and improve their workforce.

ExxTend Learning is OSI's learning management system (LMS). As both an LMS and a learning content management system, ExxTend Learning empowers organizations to administer, track, and report on training, while also providing an avenue to create, import, and deliver the content across their organization.

EXXTEND LEARNING FEATURES:

Reporting
- Extract data on demand, evaluate training compliance and identify learning gaps
- Reports can be exported to browser, PDF, Microsoft Excel or email

Classroom Manager
- Allows for blended learning and the tools to set up, schedule, enroll and record classroom training. Enable Administrators to conveniently credit class attendees.

Content Delivery
- ExxTend Learning content can be delivered in four different learning modes – Test, Learn, and Study and Adaptive mode.

Content Creation
- Includes a built-in course authoring tool providing the ability to create your own custom courses.

Curriculum Manager
- Organize and deliver the curriculum to employees in individual or manageable units such as equivalencies, tracks, jobs, groups or roles.

Third-Party Content
- Deliver content from third-party providers such as; uploaded SCORM compliant content, AICC content, HTML and many other options.
