

WHY DYNAMIC CONTENT?

OverNite Software, Inc. has 17 content libraries containing over 500 ready-to-deliver courses for use with our ExxTend Learning™ LMS. Each course has been created with the end user in mind. Our course content is developed according to industry standards and regulations. The courses are written using today's instructional design techniques to maximize knowledge retention, and they're loaded with visually dynamic graphic design. As a bonus, you can even customize the content to reflect your organization's specific learning requirements using the Course Authoring Tool in our LMS.
